## Message from Pierre Ynad (the composer of this heavenly music):

The frequency of 1111Hz – also called “Angel Number frequency” or “frequency of angels” – helps to tune into the present moment and the spiritual Love, help, and protection that is available to you at any time, wherever you are and wherever you go.

According to numerology, the number 11 is a “Master Number”. It signifies intuition, insight, and enlightenment, while 1 itself stands for creation, leadership, and manifestation. When paired together, 11 11 is perceived as a message from the Universe to become conscious and aware. The Angel Number 1111 encourages us to step out of our comfort zone and grow spiritually, mentally and emotionally, while providing us with all the love, help and protection we need.

Seeing 11 11 may signify that your spirit guides are attempting to contact you. 11 11 is also said to be the number of spiritual awakening, meaning that you are on the right path

and your actions are aligned with your soul's purpose. In other words: Seeing 11 11 is a good sign! ☐ An energetic gate is being opened in which you can experience spiritual awakening and growth.

If you keep seeing 11 11, you are probably undergoing a process of spiritual awakening. You are on the right path and you're being assisted by your spirit guides and the Universe to consciously grow and expand. Pay attention, be aware, and remember to stay grounded in the present moment!

Each angelic number (or: "AN" for Angel Number) is linked to its corresponding angelic frequency. Each frequency exists with a purpose and can help you in different stages of your life. Whether you are feeling weak, uncertain or in need of strength to carry on with your current plans and projects, there is a different frequency that can help you. Angel Number frequencies also help to engage more deeply in the mystery and wonder of existence. Understanding, that there is an "Intelligence" much greater than ours at play and there is much more around us, than we are able to perceive and/or even imagine.

For this meditation and/or sleep music, all instruments have been specifically and carefully tuned to 1111 Hz. Therefore, the meditation music in this video is an original 1111Hz composition and has not been artificially tuned to 1111 Hz after completion. I am convinced that composing music in the original frequency will lead to better results when it comes to deploying the positive energy and benefits of this particular Angel Number frequency.

Feel free to listen to this originally composed 1111 Hz Angels
