In this fun video, you'll discover 25 amazing "coincidences." [Some people believe that coincidences are actually "synchronicity"](#) that occurs because they're in the flow of life which puts them in the right place at the right time. Or similarly, if they're not in the flow of life, it may put them in the wrong place at the wrong time. Or it maybe that all of us are always in the flow, and always in the right place, but it simply seems wrong sometimes, like when tragedy happens.

This video by [List 25](#) offers some chilling coincidences that make you wonder.

Are these random events? Or are they synchronicities? Or even signs of fate? What do you think about coincidences that defy all the mathematical odds? Feel free to share your thoughts below.
