In these unprecedented times, we have the opportunity to help bring our world back to a point of balance. This invocation has been created to help facilitate what is being called for – A New Vision. The words, sounds, frequencies and visuals presented here are keys to profound inner realms.

This is a very important message for these changing times in 2020 – one that needs to be shared far and wide. Please do your part in creating the New Vision by sharing this with at least one person.

“A New Vision” Transcript:

We live extraordinary times. The world is changing at such a rapid rate. It may soon be unrecognizable to most of us alive today.

There appear to be no linear solutions to the moral, fiscal and environmental crisis we face today.

All attempts to handle these issues with the old mindset are doomed to an awful and protracted failure. As strange as this may seem, it is actually very good news. These are ideal conditions for the one element which promises a dynamic solution to the insurmountable problem plaguing the planet today: a radical transformation of Consciousness. This is the wild card in the deck.

These conditions constitute precisely the right environment needed for radical transformation. Human consciousness is notoriously asleep when things are comfortable, predictable and certain.

Ancient initiation rites always involved facing the unknown and the very real possibility of annihilation. We find ourselves at a unique point in the evolution of human consciousness. A tumultuous time of unprecedented change and transformation.

What is being called for is a New Vision – one which embraces coexistence and co-creation over domination and exploitation – a Quantum Leap in the awareness of how we see ourselves.

As we experience the dissolution of the old order, it is apparent that many across the world are experiencing a new sense of empowerment, asserting the desire for peace and respect for all beings. Millions are experiencing a sense of connection and unification.

This is a planet in transition. A New Earth is being born. A world nested in loving kindness, justice, peace and a sense of Oneness of unity consciousness.

As this new Earth comes into being, the associated chaos and disorder will post some major challenges. Simultaneously, wonderful new experiences will also be occurring. People will start be filled with the idea of awakening, of joy, freedom.

More and more synchronicity will abound in our lives. Deep happiness will overflow in our lives the strangest times.

Sweet peace will steel over us for no apparent reason as we feel the presence of a magnificent, divine self arising within us.

We are in the process of a very rapid Spiritual Awakening. This shift of Consciousness in the world and in our personal

lives has been predicted for a long time by seers, visionaries, spiritual teachers, astrologers, and Indigenous Elders from traditions around the world.

The Earth is arriving in a new part of the Galaxy just in the middle of the Milky Way – something it does every 26,000 years. Very high frequencies exist in this part of the Galaxy. And these frequencies are being absorbed into the world of matter, catalyzing a vibrational shift to lift and evolve all beings very quickly.

Powerful changes are also occurring in the Sun. Unprecedented coronal mass ejections, high-frequency solar magnetic winds are being released into space – flooding the Earth. The redistribution of electromagnetic fields on the Earth will accelerate profound changes in our lives. This may cause feelings of disorientation, confusion and fear as old patterns of negativity and limitation are released and new higher energies take hold.

It seems the way to approach this time of transition with balance and ease is to prepare oneself spiritually, mentally, emotionally and physically to remain clear, steady and awake.

Many are being called purpose to assist in ushering this new transformational era of human life. It is nothing less than a dimensional shift from one modality of Consciousness to another, involving the conscious ingress of higher frequencies into the third dimensional plane. We are moving towards a new world, a new level of reality, in which the consciousness of love, peace, and spiritual wisdom prevail.

Once we have learned how to anchor these higher frequencies, the result will be the co-creation of the new Earth – one in which we will live in peace and harmony. One in which we will experience an all-pervading Oneness with the totality of Life. One in which we respect all sentient beings, where the Earth herself will be perceived as our mother.

Fear hunger poverty and crime will be made obsolete. Our natural birth right will be equality, justice, respect and abundance for all. All beings will awaken to the majestic, Divine multi-dimensional beings that we truly are.

Listen to your intuition as your eyes open.
