

# Plant Consciousness and the Awakening: Interview with John Perkins

*I thoroughly recommend this consciousness raising interview with John Perkins – author of “Confessions of an Economic Hit Man” and several works on plant shamanism. John is speaking at the London conference “Plant Consciousness” on the first weekend of October 2014. I am also speaking at this event. Here is the link to the conference website: [www.plantconsciousness.com](http://www.plantconsciousness.com). See you there!*
