Across Australia, Indigenous communities are being coerced and bribed into taking experimental covid injections. The corporate Australian governance has sent police and military into these communities to administer these injections. This is a warning message from four Indigenous Australian leaders to all Original peoples around the world.

This is a message for ALL humanity. Your DNA is sacred. It is crucial for your connection to self, to country & to spirit to protect your DNA and stand in your true power. Say NO to coercion and yes to freedom of choice. UNITED WE STAND!
