

Polio Vaccines, Weaponized Cancer & Lee Harvey Oswald, Oh My!

Unattributed | * [Aircrap](#)

Compelling story on cover ups and Government fraud. 1963 – History of Polio vaccine corruption – drug companies pushed by Government to create a Polio vaccine, discovered vaccines were contaminated cancer viruses ([SMV-40](#)) and vaccinated 100 million children any way to meet the Government deadline. **Big Pharma's rational was they would come up with a 'cancer' cure later. Polio vaccines = 15 cases of cancer for every 1 polio case.**

Brilliant Judyth Vary Baker (who dreamed of finding a cure for cancer) was recruited into a covert bio-weapon lab in New Orleans to create vaccine to kill Fidel Castro. Judyth as a student was able to make cancer grow faster than the government labs. As a covert operative, she was assigned protection by government agent Lee Harvey Oswald.

Monkey's tortured, killed, crippled, prisoners on death inmates row used for test subjects – Judyth left this insanity. Polio vaccines = 15 cases of cancer for every 1 polio case. Good for Pharma business, radiation enhances tumor growth for the 100 million children vaccinated in the 1960's now adults – Cancer epidemic we are seeing now. Airport X-Rays....This is why we have a soft tissue cancer epidemic now.

We recently had Ed Haslam on the show, and he talked about his knowledge of events leading up to Lee Harvey Oswald being framed for the assassination of John F. Kennedy. Today, we get into the deeper story from none other than Lee's lover, Judyth Vary Baker. Judy's involvement in the Lee Harvey Oswald saga began when she was a teenager with an intense interest in cancer and medicine. As the years went on, she found herself in the midst of interactions and involvements that television dramas are made of, but in this case, it was a real-life drama.

Judy has a special insight due to her relationship with Lee, as well as her involvement with a project focusing on weaponizing cancer. She understands the medical industry, the prevention and treatment of cancer, the dangers of the vaccination schedules, and how and why Lee was blamed for the JFK assassination.

Some of the topics you'll hear discussed today include:

4:30: How Judy got involved with weaponizing cancer with Dr. Mary Sherman.

12:20: How Judy met Lee Harvey Oswald – She thought it was a coincidence, but found out later that the meeting had been planned.

19:00: Details about Lee, such as why he dropped out of high school, and why and how Wikipedia and other media have villainized and trivialized him.

22:00: How Fidel Castro's health care policies in Cuba led to his doctors unwittingly participating in the implementation of cancer being used as a biological weapon.

37:30: Judy's belief that bacteriophage can kill cancer, and how we could have had a cure by now, but since it can't be patented and is inexpensive, Big Pharma won't allow it.
