

Journey to Consciousness With the Horse

Every Saturday from 4-6pm EST I host the Cosmic Creating Show on Cosmic Reality Radio when I interview interesting and inspiring guests to explore topics such as spirituality, conscious evolution, metaphysics, ascension, personal empowerment, universal laws, mindfulness, manifestation, and hidden truths.

On Saturday 31st August, I decided to do something different. In this show, I tell the story about my journey to consciousness with the horse and what I learned from the experience that can help you step into your power as a cosmic creator.
