Jan Shaw – The Success Alchemist, is a Spiritual Empowerment and Intuitive Success Coach who combines personal empowerment and spiritual development with practical strategies to create Unstoppable Success.

As a certified life and executive coach, she helps spiritual change makers, lightworkers, entrepreneurs and executives fulfill their Divine Soul Mission and Life Purpose by clearing the limiting beliefs that sabotage their success, building their unshakable self-love, teaching the universal laws of manifestation, and providing powerful strategies to create Unstoppable Success in life and business.

Jan is the founder of the Unstoppable You Academy and developed the “Creating the Unstoppable You” formula for success. She is the author of “Dream Achievers Success Kit”, “Unstoppable Success Strategies” and “Empowered Manifestation”. Jan has been a radio show host since 2010 and now hosts The Cosmic Creating Show (www.spreaker.com/show/the-cosmic-creating-show).

For over 20 years Jan worked in corporate IT and consulting, leading high-performance teams and delivering multi-million-dollar projects before she left to start her own business in 2004 as an internet and business consultant. She wrote her
first book “Social Media Marketing in 30 Minutes a Day” to help businesses leverage the power of social media. She also provided consulting on business strategy for several major public-sector organizations in the UK.

Jan is also a lifelong horse lover and studied equine psychology and behavior during the process of rehabilitating her Andalusian (Spanish) gelding. Her experience with her horse was a game changer for Jan as she learned about the nature of fear, how to overcome it, empowered leadership and the laws of manifestation. This experience was the catalyst for her to explore spirituality, consciousness, metaphysics, manifestation and universal laws.

In 2009 she made another major life change when she moved from the UK to the USA to create the 7-day Festival of Enlightenment, which was held in Estes Park, Colorado in June 2011. Jan received her vision for the Festival during a meditation and it became her Divine Mission to organize it. For Jan, the Festival was a research project in manifestation and she ‘stepped outside the box’ to achieve what many people said was impossible, and overcame many of her core issues in the process.

It was also in 2009 that she realized her true calling was as a coach/mentor, trainer and spiritual teacher. Since then she has been sharing her extensive experience in life and business, her knowledge of psychology and personality, and her spiritual teaching with her clients to inspire them to step into their power, live their truth, fulfill their Divine purpose and achieve their personal and professional dreams.

As well as being ‘The Success Alchemist’, Jan is also known as ‘The People Seer’ by her clients as she has the intuitive ability to identify the core issues that are holding them back, and to see the untapped potential within them.

She has been blessed with Akashic Records and Soul Profile
readings which have confirmed her Divine Purpose as a spiritual teacher, spiritual warrior, blueprint changer and promoter of conscious evolution. Her specialization is ‘The Power of Neutrality’ and she holds a very energetic, non-judgmental, clear space for her clients to empower them to become powerful creators of their own experience and to take a stand for their personal, unique and authentic truth.

After nearly 40 years’ experience in international corporations and small businesses and having overcome many personal challenges of her own, Jan provides a powerful mix of creative solutions and intuitive guidance, sprinkled with spiritual and metaphysical principles, to transform her clients and take them to a level of success and fulfillment that they’ve been dreaming of, but perhaps didn’t truly believe was possible.
