

Do Vaccines Make Us Healthier?

By [Children's Health Defense Team](#) | [The Defender](#)

Do vaccines make us healthier?

Everyone, no matter where they stand on the vaccine debate, should want to know the answer to that question.

Yet our national health agencies have [never tried](#) to find out.

In the video below, you'll learn about three groundbreaking studies that set out to answer this most basic question.

The studies ([here](#), [here](#), and [here](#)) were conducted independently, using different methods – but all three compared the overall health of vaccinated people versus the overall health of the tiny fraction of people in the U.S. who have never been vaccinated.

The results, revealed in the video below, are “striking.”
