Dolores Cannon (1931 – 2014) reveals the new messages coming through her thousands of hypnotherapy clients regarding the changes that are in motion for humanity, specifically, our evolution as a species.

What she is being told is that we have two distinctly different outcomes ahead, depending on how we choose to develop our own vibrations. In this interview, she talks about how ET's are keeping a watchful eye on our human evolution and the two distinctly different outcomes that lie ahead for us.
