A large fleet of spacecraft belonging to highly evolved extraterrestrials has recently entered our solar system to watch humanity's liberation according to James Gilliland who has over 35 years of contact experiences. He claims these positive extraterrestrials along with higher dimensional beings are here to oversee a fundamental change in how our solar system and planet are run. James discusses the collapse of the Deep State and regressive ETs in this Exopolitics Today Interview.

James Gilliland runs the ECETI retreat in Mt Adams, Washington, where visitors can regularly watch UFO activity and attend annual conferences. His website is <https://eceti.org>
