

# **Juno enters Aries. Stunning insights into Asteroid of Partnership, Commitment, Equalities...**

Juno enters Aries 13th January, 2023. Juno is the asteroid that influences relationships, partnerships in particular, deep, committed bonds. Juno is perfect for our times, desirous of equality and fairness. The give and take in a good relationship is reflected by Juno, and the anger of unfairness and rejection.

Juno was conjunct Neptune as last year ended, but now there is a chance for new beginnings, or to revitalise on-going involvements. Please join me for the inside track with my DEEP Dive Video and discover the key connections she will make in the next two months.
