As so much is controversial in the news these days, it is nice to have something we should all be able to agree about. Music is a type of universal language, and we should all agree that there have been some great women in history. Even if you disagree with their views at times, they were pioneers in their respective fields, and in some way(s) changed history. Why not enjoy this wonderful video with some of the great women in your life.

Robert O'Leary, JD BARA, has had an abiding interest in alternative health products & modalities since the early 1970's & he has seen how they have made people go from lacking health to vibrant health. He became an attorney, singer-songwriter, martial artist & father along the way and brings that experience to his practice as a BioAcoustic Soundhealth Practitioner, under the tutelage of the award-winning founder of BioAcoustic Biology, Sharry Edwards, whose Institute of BioAcoustic Biology has now been serving clients for 30 years with a non-invasive & safe integrative modality that supports the body's ability to self-heal using the power of the human voice. Robert brings this modality to serve clients in Greater Springfield, Massachusetts and New England (USA) & "virtually" the world. He can also be reached at
