Holy smokes. It’s here.

You’ve got to hear what Australian public health official Kerry Chant says at the beginning of the above video: “We will be looking at what contract tracing looks like in the New World Order.”

(CLN Editor Note: She announced the arrival of the New World Order almost exactly 31 years to the day after George H.W. Bush announced the coming on the New World Order on September 11, 1990: “We have before us the opportunity to forge for ourselves and for future generations a New World Order...When we are successful, and we will be, we have a real chance at this New World Order – an order in which a credible United Nations can use its peacekeeping role to fulfill the promise and vision of the UN’s founders.”)

Watch how she’s calling for denying people freedom and effectively enslaving them because they didn’t do what the government wanted them to do.

And specifically how contact tracing is a part of the New World Order and how the New World Order will play out.
So in the video above, I get into the background of this being a concept that has been espoused and been talked about for a very long time. And now it’s being promoted by a government that has gone totalitarian like China or North Korea.

Additionally, I delve into Twitter’s reaction and rush to censorship, as well as how the MSM is spinning all of this.

Plus, I give you an update on key economic developments in the US and El Salvador.

And I explain how Prince Andrew is fleeing in order to avoid being served in a case brought by his victims.

“We have before us the opportunity to forge for ourselves and for future generations a new world order – a world where the rule of law, not the law of the jungle, governs the conduct of nations. When we are successful, and we will be, we have a real chance at this new world order – an order in which a credible United Nations can use its peacekeeping role to fulfill the promise and vision of the UN’s founders.” ~ George H.W. Bush, September 11, 1990
