

Humans Mysteriously Appeared 200,000 Years Ago | Gregg Braden

Video Source: [Inspired](#)

According to Gregg Braden, science now confirms that modern humans are NOT a product of evolution. We mysteriously appeared 200,000 years ago and all evidence points to some sort of higher intervention.

Gregg Braden is one of today's leading scientists and mystics. He speaks of the wisdom of the past and how a new time in our history has arrived.
