

# **Chemtrails are Causing Climate Disintegration Amid Programmed Social Apathy**

The forests are dying, the oceans are dying, the Earth is dying, and even at this late hour the vast majority of first world societies remain completely immersed in total denial and apathy that is manifested in many forms. The ever growing list of extreme weather events and unfolding global die-offs are not discussed or disclosed by the power structure owned and controlled corporate media machine of mass distraction. Though climate engineering is aggressively denied by the criminal media cabals, it is real, ongoing, and lethal to all life. The media's the most powerful entity on earth. They have the power to make the innocent guilty and to make the guilty innocent, and that's power. Because they control the minds of the masses. Malcolm X
