

# **'Thanks For Everything': The Touching Moment A Chimp Who Was Nursed Back To Health Hugs Jane Goodall Before Being Released Into the Wild**

A chimp named Wounda, one of the more than 160 chimpanzees living at the Jane Goodall Institute in the Republic of Congo, overcame illness and regained her strength. Now she has been relocated to Tchindzoulou Island. Dr. Jane Goodall was on hand to witness Wounda's emotional release and received an affectionate hug.
