

The Science of Resurrection and His Ever-Living Presence.

From a Yogic perspective, Resurrection is an initiation {Kriya yoga} where the soul unifies with spirit. The soul's ascension from the Maya of confinement of body consciousness into the omnipresence of god/source communion. When Jesus, attained oneness with the Absolute {after his crucifixion, through a yogic science of ascension – consciously leaving the body through the third eye – mahasamadhi} he then went through a process which explains the prophecy of rising again after 3 days: “Destroy this temple {body temple}. and in three days I will raise it up.”
