

Big Pharma Achieves Total Legal Immunity for Coronavirus Vaccines; Even as Vaccine Injections May be FORCED onto Billions of People | Health Ranger

We have now arrived at the ultimate moneymaking scam for Big Pharma, a corrupt, criminal industry that's going to great lengths to pressure Big Tech to censor all speech that doesn't earn them more profits. Now, vaccine manufacturers like AstraZeneca are openly bragging about how they've achieved absolute legal immunity from all side effects caused by coronavirus vaccines, even as "Dr. Evil" Fauci and other pawns of the vaccine industry are pushing for mandatory vaccine injections for billions of people. You have no right to say no, in other words, but you also have no right to sue if their product turns out to be faulty and causes injury or harm. This is now the status quo of the lawless, anti-human vaccine industry and all its corrupt collaborators such as Big Tech, Big Media, medical schools and complicit medical journals.
