

# **Aquarius New Moon 11th February 2021 + Zodiac Sign Forecasts**

The Aquarius New Moon is a wonderful opportunity to set our intentions for our future hopes, but most importantly how we can achieve this by connecting with others, and developing co-operation and help networks. We have seen small investors combining to take on old money successfully and people rising up against unfairness. Aquarius energy speaks the truth to situations, so must all elevate our hopes with this.
