

Teaching the Book of Proverbs to Youth

Discipline is perhaps the last thing your children like to talk about. Even the words might conjure up thoughts of timeouts, lectures, and stuff taken away. It possibly makes sense that bringing up “discipline” with your children will be met with some resistance.

In this post, we will talk about the other form of discipline. When it comes to the Bible, a few books are more practical, more directly helpful to teens living today, instead of the Book of Proverbs. This book of wisdom is loaded with life lessons that will help any youth handle life here on the planet.

You see, many teens cannot sit still long enough for a long dissertation on why they should or should not act a specific way. Nonetheless, the beauty of the Book of Proverbs is that they don't need to, as the verses in the book get right to the

heart of the problem—teaching a crucial lesson or delivering advice on short notice.

Teens instantly learn a Godly way to think or act or live their life. Unluckily, when we talk about children, some verses in Proverbs are easily understood than others. While there are 915 verses seen in the book, not all are directed to kids, as many are suited for adults.

That's why we have gone through the entire book and picked what we think are the best proverbs that apply directly to youth. Rather than overloading your teens with powerful verses that some of which they might not completely understand, you can be confident that you're teaching them the ones they'll most identify with.

But before we give you the best proverbs to teach to your children, discover why it's important to do so.

Why teach the youth the book of Proverbs?

With the modern world we're currently living in, it can be challenging to tell what is right and wrong. Globalization has caused many of the world's cultures to collide with one another. In America, it indicates that the youth are exposed to all types of "wisdom" from different faiths.

To fight continuous debate about right and wrong in the country, most have resorted to a kind of "relativism" where people say, "what is true for you may not be true for me," and different types of "nobody can understand what is ultimately true, so let us not argue about it."

However, the reality remains that *something* is true, and we must not go around picking your truths like you pick shampoos at the grocery store. In short, you should not pick a truth only because it's expedient or because no one is loud or mistreating objects to them.

That's where the Book of Proverbs comes to the rescue. God has noticed the denial of the Ultimate Truth, and He hasn't left people without a compass. He has provided thousands of Bible passages to identify truth and fallacy, right and wrong, and the Proverbs is the most straightforward example.

What are the best proverbs to teach to youth?

The preteen years are considered the transitional stage. It is sometimes confusing for young individuals as they hear many conflicting messages through the internet, the TV, and their peers at school. Further, it's challenging to identify what's a piece of good advice and what is not. Teaching them essential lessons from the book of Proverbs will help them guide through these years.

▪ Proverbs 3:5-6

For youth, this verse teaches a very vital lesson. A young individual must realize that it is okay not to know everything and that counting on the Lord's wisdom will keep them going into the right course.

▪ Proverbs 18:24

Making and keeping friends for youth is a critical concern. Who their friends are and are not makes all the difference in their world. This proverb tells youth that it's important to pick the right friends, as their characters and futures depend on it.

The second part of the verse is often interpreted as God's friendship, which sticks closer than a brother. Having that guarantee can help young individuals make difficult decisions when it comes to picking their friends.

▪ Proverbs 6:9-11

This proverb warns against laziness. Teens must understand that hard work is essential if they want to succeed in

life. That proverb is a good reminder that sitting around and just being idle won't result in success.

▪ **Proverbs 4:25-27**

The years ahead for teens are loaded with temptations and distractions. Youth require continuous reminders that the world they're living in is full of dangers and that it's smart to remain focused on God and follow the best path.
