The People Are the Power. When We Unite, We Can Stop These Crimes Against Humanity! | Lurnpa

Source: Lurnpa Lurnpa

“I’m in this for the children. I’m in this for the people. I’m in this for humanity. And, I’m in this for Mother Earth. I stand with all who seek freedom. And, I will never give up on the children and future generations... I ask you to stand with all of humanity to end the senseless suffering across the planet that’s been perpetrated by corporations that are nothing but war mongers. All the conflict on the planet and all of these wars are bankers wars. Everything is by design. We have been socially engineered. We have a chance to unite as humanity and stand up. And, I’m calling on YOU ALL to stand with us because at the end of the day it’s the people power. The people are the power. And when we realize that and when we unite and stand together, we can stop these crimes against humanity. We can stop the genocide. And, most importantly, we can protect the children.” ~ Lurnpa

Since videos of Lurnpa speaking at the freedom rally (see HERE and HERE) have been circulating, we have seen an overwhelming unity form amongst the human community which we have dreamed of for many years. Seeing this unity being cultivated has brought relief and a new boost of energy to continue this fight that was beginning to take a toll on many of us who have been fighting for years and intergenerational – lifetimes.

Yes we are fighting, yes we are at war but we are not just soldiers or warriors, we are human. Lurnpa decided to put this short video together of explaining why he has embarked on this
pilgrimage of creating a better world for the children through reasserting our freedom and Sovereignty as human beings.

Also from Lurnpa:

“The Indigenous of Australia are rising and standing with you to protect each and every one of you against this medical tyranny and this fraudulent govt. Under UN orders the queen decolonized Australia in 1973. The govt was meant to hold a referendum to let the people decide by referendum how to be governed they did not. they created a corporation and the fake Queen of Australia. they were also supposed to renegotiate a treaty with the Indigenous. They did not. This was a big mistake for them. It means that the only law that is valid here now is Indigenous lore. The tribal elders of all councils around Australia are coming together to stand down this govt. They will offer anyone who requests it a tribal card that you are under Indigenous lore. This has been tested and it works. They will not be able to touch you or force you to do anything. If they try there are legal repercussions on them personally. Soon we will be rallying against the govt and launching this. there need to be protests around the country in support of the indigenous who are protecting you and bringing our country out of this communist takeover. A call-out will be made. This is it, people. Stay strong. Be Ready.”
