

Virgo New Moon September 2020 + Zodiac Forecasts

Thursday 17th September 2020 sees a New Moon in Virgo. This gives us a wonderful opportunity to refine, reorganise or refocus many different strands, but particularly around our diet, well being and exercise, but also ensure that our lives are as organised as they can be.

This New Moon forges a very helpful link to Saturn, also in the Earth sign of Capricorn, so attention to detail, precision and application, can have lasting benefits.

That said, the Retrograding Mars can cause some issues, as can Venus's square with Uranus. To capitalise on the opportunities and steer clear of the pitfalls **Please watch my In-depth Virgo New Moon Video inc Specific Zodiac Sign Forecasts below...**
