

# Weekly Horoscopes 30th April 2018

Monday sees a potent Full Moon in Taurus but squares to the point of destiny the North Node. Generosity can bubble up, but carefully marshalling of resources can still be important this week. This is aided in the first half of the week by the Sun's continuing helpful angle to Saturn, but compassion and care can also come to the fore in the week's second half. **For your FREE Weekly Horoscope 30th April 2018 please see below...**

## Weekly Horoscopes

### Aries 21 March – 20 April

The Sun is hugely influential for you this week, urging you to look for tangible gains in whatever you do in its relationship with Saturn, and ironically in its angle with Neptune, which is asking you to be a little more self-sacrificing and sensitive about issues that feature money or materialism. A plan which has been stop-start for some time can finally reach fruition, which can be hugely pleasing.

### Taurus 21 April – 21 May

The Full Moon asks you to be mindful of your relationship situation. For as it squares to the North Node, the Point of Destiny, if someone close is feeling neglected, this can become more of an issue for them. Then again, your desire to restructure and expand your situation in some kind of thorough and step-by-step way, is accentuated superbly, as the Sun binds to Saturn.

## **Gemini 22 May – 21 June**

Finally, Mercury, your ruler, emerges from shadow on Friday, and any planning to your long-term prospects becomes clearer. You may also find yourself working hard behind the scenes, but you may not necessarily see instant results. Mind, the hard work you invest will lay down the platform very helpfully for the times to come. Ignore any unkind attitudes, and stand strong.

## **Cancer 22 June – 23 July**

This year has been so profound around your relationships. And if there is any association you have, be it a platonic, professional, friendship or loving bond, those that are really important to you and are going well, can get stronger still from here on in. Indeed, any shared love of spirituality, travel, the arts or crafts can also be something that binds you together with people in general Cancer.

## **Leo 24 July – 23 August**

Your feelings can be particularly close to the surface this week, but this can be an absolute advantage if it helps you to demonstrate how you really feel to people. One area that can truly shine is around work, where your organizational skills can gain greater recognition. A friend who has seemed preoccupied for some time can also finally get in touch and suggest a meet up.

## **Virgo 24 August – 23 September**

The Full Moon suggests that your words and thinking are going to be particularly important for the next two weeks. Someone can really appreciate it, should you take the trouble to explain something to them or the sincerity of a belief or idea

that you have. Your listening skills are also going to be well attuned in the second half of this week, and you can pick up things others miss.

## **Libra 24 September – 23 October**

There can be some important discussions about finances this week, perhaps linked to property, investment or pensions, or you may be looking to re-jig your weekly budget. Your thinking can be really constructive and this may see you coming up with a fresh idea to bring revenue into your situation. However, your [Libra Horoscope](#) also cautions you to avoid being too idealistic, and especially around how your friends feel.

## **Scorpio 24 October – 22 November**

The Full Moon in your sign at the start of this week is going to see you thinking very carefully about all sorts of relationships. Look to have constructive dialogue where possible. Neptune is encouraging you to let go of any smaller issues and embrace the things that are working well. Venus is in a very positive location for your long-term finances, but this may be linked to someone else.

## **Sagittarius 23 November – 21 December**

Health, fitness, diet and general life organization may not be the sexiest of strands, but they can benefit from a sustained amount of effort and attention at this time. The more you put in, the more gratifying your progress can be. But even the relationship part of your situation can be positive, as Venus begins to give you added charisma and draw goodness to you Archer.

## **Capricorn 22 December – 20 January**

Your ruler Saturn, has a much maligned reputation, but this week is forging a fantastic link to the Sun. When it comes to your creativity and any kind of talent, your naturally self-disciplined and hard-working approach can work wonders. If you can be both creative but organized, you'll flourish. A conversation in the second half of this week can be spiritually uplifting for you.

## **Aquarius 21 January – 19 February**

Home is said to be where the heart is, and any ideas that you've had on the back burner for some while to improve your abode, can start to shape up really well. Your sincerity and depth of personality can also stand you in very good stead when it comes to family relationships where people can be appreciative of your support. Venus also encourages you to play host.

## **Pisces 20 February – 20 March**

The friends who are really solid citizens in your world can be the ones you appreciate most this week. So it may not be the most ostentatious of associations which impress you, as much as those who are reliable, keep their word and are consistent in their approach. Travel plans can however be subject to some last-minute delays, especially linked to obligations.
