Astrology Overview for May 04-10, 2020

The week begins with the Sun and Mercury still tightly bound together. This gives us the chance to earth our efforts and try to create practical results. In fact if we look to think in a progressive way, and embrace the powerful transformational energies of Pluto, new possibilities can emerge from the recent readjustments we have all had to make. However it is true that with Neptune so influential this week, relationships may require some care and especially around issues of shared finances resources or intimacy.

Tuesday also sees the North node in verse into the sign of Gemini where it will be for the next 18 months. This notional point, can actually be enormously powerful and is pushing us to embrace an increase level of connectivity and communicational closeness to those immediately around us, or to embrace our communities, and local environments more

closely.

Thursday's Super Full Moon in Scorpio also angles to Neptune urges us to think of those who are less fortunate, or to use as much imagination as possible if we are trying to balance major practical demands without longer term situations.
